

Reclaim your future!

All about the 2023 federal election in Bavaria

Are you also fed up with old thinking and self-promoters? So are we. Egoism and populism won't get us anywhere in Bavaria. Do you want to make a real difference with us? Then get involved in #TeamBayern:

- We focus on action instead of complaining
- We solve problems instead of postponing them
- We get down to work – while the CSU is gambling with our future

Vote for cheap electricity!

You could have benefited from green energy long ago – if the CSU hadn't blocked it forever! We are catching up with Bavaria's deficit in wind power:

Every wind turbine makes electricity cheaper for you.

You will get safe and clean electricity.

Your job will be crisis-proof, because our economy also needs green electricity made in Bavaria.

Vote for climate instead of crisis!

We live in beautiful Bavaria – but who protects us from heat, drought or storms? The government is twiddling its thumbs. We provide real climate protection:

Our home, its green meadows and shady forests will be preserved.

Your Bavaria will remain prosperous because we are making it the world leader in climate protection.

You can still look forward to summers by the lake and snow in winter.

Vote for your children's future!

The most important thing is to give our children a good start in life:

For a safe, good daycare place for your child.

For a free and healthy lunch at every school.

All children travel free of charge by bus and train (and they run more often).

Vote for equal pay!

Many people earn less than they deserve. Do you too? We make sure there is more fairness in money:

As a woman, you finally get as much as your male colleague.

Do you work in care, education or another caring profession?

We guarantee you a fair payment.

So, let's do it! For this we need strong GREENS in Bavaria's government. With your votes, we get it done. All votes for GREEN on 8 October!

You want to support us? Then join Team Bayern!

[Become a member now](#) or [support us with your donation](#) or [donate a poster](#).

Together we will make sure that Bavaria will have clean and affordable energy in the future and that all people will be able to live a good and fair life. Thank you for your support.

Here, you can find our [government programme](#) for a good life all over Bavaria.
